OBITUARY

Leonard Walls, who died on 11th December 1968, aged 79, was a lifelong chess player. He lived in Manchester until he was 35 and belonged for 10 years or so to the Manchester warehousemen and Clerks Chess Club and for a short period to the Manchester Chess Club. He was Treasurer of the former club for a period of two or three years but although he was known to have played some good chess I have been unable to obtain his playing record.

He moved to Harrow in 1923 and co-inciding with the move he married his wife Alice who survives him. He soon joined the Harrow Chess Club and became Secretary and Treasurer in 1929. He relinquished the Treasurership in 1934 but continued as Secretary until 1946. One of his first acts as Secretary was to move the meeting place from a school to the Gayton Rooms where the club continued to meet for many years and under his stewardship the club increased numerically and in playing strength. there were in fact only a dozen or so members when he took office and these had increased to 40 or so when he resigned. He became President of the Harrow Chess Club in 1954 but was forced to give it up in 1956 by the high blood pressure which also affected his play in latter years. He held the Harrow Club Championship jointly in 1929/30 and won it in 1933/4, 35/6, 36/7 and 47/8.

He played for Middlesex from 1930 to 1958 at boards which, accept at the start of the period and in one match at the end of the period, varied between 18 and 39, but over the years in fact only played 23 county matches winning 7, drawing 13 and losing 3. He was also Secretary of Middlesex for a year or so during the war.

Early in 1963 he moved to Horsham and not long after retired from buisness. He joined the Horsham Chess Club and was a very regular attended right up to the week of his death. He played regularly in matches for Horsham with an excellent record and also played for Sussex with equal success.

His style of chess was very attractive and he always played a combinative game and looked for the possibility of a sacrifice. As white he often played the Kings Gambit but even more frequently resorted to P-QN4 on the first move. As black against the Kings Pawn his favourite was the Centre Counter.

Both John Poole, who assisted me with the reasearch, and I, are surprised that his playing record in his prime was not more impressive but perhaps throughout his chess playing career his real 'forte' was an offhand skittles game.

Two very good championship performances by Hants. With the Surrey and Sussex Championship teams both ailing perhaps Hants may finish runners up in the Southern Section next season. I say runners up as I cannot see anyone catching Kent for a season or so.

No results have been received from Norfolk, Suffolk and Cambridgeshire. This means that I have to rely on the rather dubious ideas that their opponents match captains have for names and initials. It also means that three championship results will not be available for publication. Perhaps there are no subscribers to Chess Fare in these counties ?
